125. Control of Nuisance Wild Quadrupeds

A. This rule applies only to the control of the wild quadrupeds listed below and ONLY when they are conclusively proven to be creating a nuisance or causing damage to property. **The burden of establishing that the animal in question is causing the property damage shall rest with the property owner.**

B. The following wild quadrupeds may be taken year-round without permit by the property owner or his designee, with written landowner permission, but only by trapping or shooting during legal daylight hours: coyote, armadillo, nutria, beaver, skunks, and opossums.

C. Squirrels, rabbits, foxes, bobcats, mink, otter, muskrat, raccoons and any of the other species listed above may be trapped alive and relocated to suitable habitat without permit provided the following conditions are met.

1. Written permission is obtained from the property owner where the animals are to be released and such written permission is carried in possession while transport and release activities are taking place.

2. Animals are treated in a responsible and humane manner and released within 12 hours of capture.

D. Traps shall be set in such a manner that provides the trapped animal protection from harassment from dogs and other animals and direct sun exposure.

E. Nuisance animals listed above may be so controlled by the property owner or his designee with written landowner permission, to prevent further damage.

F. Property owners must comply with all additional local laws and/or municipal ordinances governing the shooting or trapping of wildlife or discharge of firearms.

G. No animal taken under this provision or parts thereof shall be sold. A valid trapping license is required to sell or pelt nuisance furbearers during the open trapping season.

H. No species taken under the provisions of this rule shall be kept in possession for a period of time exceeding 12 hours.

I. This rule has no application to any species of bird as birds are the subject of other state and federal laws, rules and regulations.
